“I’ll go to where I want to go,
I do what I want to do.”

— ACTING AND RECORDING —

From August to early December in 2015, I went around as a backpacker in Europe: UK, Ireland, Iceland, France, Poland, Lithuania, Germany, Spain and Italy.

“[3+20]” is a media-book that was made from the recording of my trip and something inspired by visual and feeling burned strong in my brain.

Why it’s not a photo book but it is a media-book — There are reasons. Is this sense filled by only visual sensation? No. The things that organoleptic to this sense from this way or that way are visual sensation, hearing and “something so strange”. With bringing that strange feeling, I started to shoot the self make-up photos in the studio in Barcelona, Spain. To express this sensation.

People often ask to me “Why you go to trip?” or “How is your trip?” e.t.c. But I don’t have anything to answer. I always go to where I want to go and lose the words. The sense just doesn’t leave from my body, and it’s so heavy.

I’d like to explode ot by myself, but also I don’t want to peel off ot from my body forever. So I don’t stop to make and express. I AM WHAT I AM and this is the way that I live.

When you’d like to touch this world that doesn’t have any words, why don’t you see and listen to this media-book “[3+20]” ?
